MARCH PROGRAM

CABRIOLE LEGS – Demo for the March 10th meeting will be given by John Larson on how he makes “Cabriole legs”. In case you don’t know cabriole legs are used as chair and table legs. John is a member of AAW, past president of Kansas City Woodturners and former owner of Larson Woodturning a production shop he started in 1996 and sold in 2001 in order to go back to school. John got his start as a woodturner 15 years ago when he went to work for Shop Smith in a retail store that is now owned by Wood Craft.

Coming in April, Rudes’ candleholders.
Merle

TOOL SHOW FOLLOW-UP.

Our demonstration and display booth at the Tool Show, the weekend of February 14-16, was well attended by the public. Many thanks to those club members who volunteered their time to man the booth and perform demonstrations during the three days. Anthony Harris and Frank Novich turned a large locust bowl to present to Karen Hawkins of Compass Exhibits, as a token of the clubs appreciation. Chris Kunzle presented the bowl to her on February 23. She was elated with the beautiful gift. Her company donated the use of the physical parts that made up our booth area.

MEMBER NEWS

Club member, Anthony Harris, is presenting his turned work in “Works in Wood”. The display will open Friday, March 7 at the Chiro Studio, 706 West Pennway, Kansas City, Mo. There is an opening reception Friday, March 7 6-9 pm.

HOUSEHOLD CHEMICAL REUSE PROGRAM

Stephanie Farley with the Johnson County Environmental Department Pollution Control Division visited our club at the last meeting. She gave the club valuable information on how to dispose of our hazardous waste materials and how to get free chemicals from their site. If you would like more information on their program, call 913-492-0402. You will need to call ahead to drop off any materials.

THANKS TO JOHN SHACKLEFORD AND RUSS BLASER

The club was given a lot of information at the last meeting on the various hollowing systems, their costs and how they work. Russ and John demonstrated the different systems, and everyone left with a better understanding of hollowing tools. Thank you both.

\$50.00 two-day workshop
Turn About Wood

IT'S BEEN ANNOUNCED!

The American Association of Woodturners has announced that the new Overland Park Convention Center has been chosen for the 2005 Annual woodturning symposium. This is great news for our woodturning community. It will be a great opportunity for our club members to participate without the cost of travel.

FEB. SHOW AND TELL

Anthony Harris brought in several threaded acorn boxes, and shared a "not quite there" project. An experiment with rare earth magnets that just didn't work out.

Jim Faherty brought in a off bias piece that he turned after attending the Tom Crabb workshop at Turn About Wood. **Don Grimes** chocolate plate was a success, and **Jerry Darter** shared a nice bowl project from Oak and Red Cedar.

Bud Schenke shared a piece from 200 year old burr oak, and **Richard Woodhouse** showed the club the collaborative project. That he, Bob Davis, and John Shackeford all had a hand in.

SATURDAY WORKSHOP

Don't forget the Saturday Workshops 8:30am - noon. Fourth Saturday of the month at Builder Resource (our regular meeting place).

SECOND SATURDAY

WORKSHOPS - Just a reminder, our first of the 2nd. Saturday hands-on workshops will be March 8th. Bob Davis will teach plate (platter) making. We have Walnut blanks ready for those who said they wanted to learn. The coffee pot will be on so if you want to come and watch and or visit feel free to do so. Donuts are always welcome. Virgil Boyd will be on hand April 12 teaching how to make a lidded box. Tools needed: skew, spindle gouge, small scraper and a cut off tool.
