October Challenge

A Christmas ornament
a segmented turning

October Demo

A Surprise

The Irish Fest got off to a rousing start with Liam O'Neill being spotlighted on Channel 4 Morning News on 8/28/14 in their 9:00 o'clock segment. He was interviewed by Nick Vasos and filmed by Monty. The setting was outside on a bluff overlooking the West Bottoms which, years ago, was settled by the Irish. It was grand promotion for the Fest, the Thursday evening Peace Bowl event at The Irish Cultural Center, and for **KCWT**.

Larry Dice trying to talk Monty into getting him on camera. It didn't work.

Washington Park is where we set up our shop and where we spent two and a half days. We had many members of **KCWT** show up to help set up, to take turns in the tent turning, talking with Fest attendees, selling bottle stoppers and some of Liam O'Neill's bowls. The weather was HOT, HOT, HOT so staying cool was a bait of a challenge until Sunday evening when it started raining just prior to the time we were taking things down. Soaked to the bone, those helping got all the materials back to the shop safe and dry. We have an incredibly generous and hard working membership.

Larry Dice went
through a lot of
shirts

Liam O'Neill turning in
our tent drew crowds,
as did his demos on
the Cultural Stage.

Ed Jaszczak having
a really good time.

Anthony Harris turning something threaded-naturally.

One of the fun things that happens at events we participate in is that we get to see how young people respond to what we are doing. Have these girls ever seen shavings before? Who knows, but they sure were having fun pretending that they were putting hair on the head of their balloon friend.

MEETING

Larry Dice began the meeting and had two new members introduce themselves. We now have 101 paid members. Two spots available for Anthony's threading class. Need some volunteers to run for the Board. Let any officer know. Report from the Irish Fest-we made money! The Art Show - bring pieces in or take them out. You have received an email with the information

Just a couple reminders - **The Challenge** is generally based on the demonstration of the previous month. If you forget the topic, it is also listed on the home page of our web site. The purpose of the challenge is to push us to push us to try new things and to improve our skills. **Show and Tell** is where everyone can bring in things that they have been working on finished or not, successful or not. We have a wonderfully accepting environment and all kinds of talented members who are willing to share their expertise with anyone no matter what their skill level is. Bring your stuff so we can see what you are doing.

DEMONSTRATION

This month's demonstration was provided by Ed Jaszczak who has made some very interesting segmented Christmas Ornaments

If you glue up the blank right and orient it on the lathe right and turn it round right and chuck it up in your homemade special chuck right and shape it up right you will end up with something that looks like

this or this or this or this - Right!
